Dear Nevada Fire Service Colleagues:

The 2012 Annual Fire and Incident Response Statistics Report for the State of Nevada prepared by the Nevada State Fire Marshal Division is presented. This report has been compiled from data Nevada's fire agencies submitted to the Federal Emergency Management Agency's (FEMA) National Fire Incident Reporting System (NFIRS). The report has been prepared for distribution as an electronic document and may also be downloaded on our website at www.fire.nv.gov.

The goal of NFIRS is to encourage the use of a standardized incident reporting system as a means of identifying and addressing the State's fire problem and related emergency service issues. NFIRS plays a major role in reducing injuries, fatalities and economic issues from fires and related emergencies by facilitating the collection, compilation, analysis and use of data to develop and disseminate valuable statistics needed by decision makers at all levels of government.

The fire and incident information, gathered from reporting departments, provides a vital resource of statistical data which can be shared statewide to assist Nevada's legislative and executive bodies, the State Fire Marshal and the State's fire agencies in determining fire cause trends and specific areas of fire losses that may need to be addressed.

The staff at the State Fire Marshal Division does not see the data reported or missing until the annual download occurs in March of each year. The initial download of NFIRS data from FEMA once again continued to show a disappointing participation rate from the fire departments in the state.

The preparation of this report was again delayed while a number of fire agencies were contacted to review their submittals, correct errors or make their initial data transmissions to FEMA.

The most recent data download includes complete or partial year incident information from 128 out of 165 (77%) of the State's fire agencies covering 319,617 incidents.

The following local fire agencies did not report incidents for all or a portion of calendar year 2012:

- Airport Authority Fire Department (16050)
- Austin Fire Department (09000)
- Battle Mountain Fire Department (09001)
- Boulder City Fire Department (03000) *missing July-December*
- Central Lyon County Fire District (11050) *missing July-September*
- Cold Creek Volunteer Fire Department (17852)
- Cold Springs #20 Volunteer Fire Department (16102)
- County Station No. 1 (White Pine County, 17001) *missing Sept.-December*
- East Fork Fire & Paramedic Dist. (04050) *missing July-Sept., Nov. & Dec.*
- Eureka Volunteer Fire Department (07000)
- Fallon-Paiute-Shoshone Tribal Fire (02902)
- Fish Lake Volunteer Fire Department (06050)
- Gerlach Volunteer Fire Department (16103)
- Golconda Volunteer Fire Department (08100)
- Goldfield Volunteer Fire Department (06000)
- Goldpoint Volunteer Fire Department (06051)
- Grass Valley Volunteer Fire Department (14002)
- Humboldt Fire Protection District (08250)
- Imlay Volunteer Fire Department (14001)
- Jackpot Fire Department (05002)
- Kingston Volunteer Fire Department (09002)
- Lovelock Volunteer Fire Department (14000)
- Mason Valley Fire Protection District (11001)
- McGill Volunteer Fire Department (17855) *missing July-December*
- Nevada ANG Fire Department (16902)
- North Lyon County Fire Protection District (11000) *missing July-December*
- Orovada Volunteer Fire Department (08150)
- Pahrangat Valley Volunteer Fire Department (10003)
- Paradise Valley Volunteer Fire Department (08200)
- Pioche Volunteer Fire Department (10005)
- Pueblo Fire District (08906)
- Pyramid Lake Volunteer Fire Department (16105)
- Round Mountain/Hadley Volunteer Fire Department (13005)
- Ruth Volunteer Fire Department (17856) *missing July-December*
- Rye Patch Volunteer Fire Department (14901)

- Sierra Fire Protection District (16104) *missing June*
- Silver Peak Volunteer Fire Department (06001)
- Smith Valley Fire Protection District (11100) *missing March-December*
- Storey County Fire Department (15050) *missing January-May*
- Truckee Meadows Fire Protection District (16100)
 - *January-June incidents reported by Reno FD and credited to FDID #16001*
 - *July-December incidents reported by Sierra FPD and credited to FDID #16104*
- Valmy Volunteer Fire Department (08907)
- West Wendover Volunteer Fire Department (05004) *missing December*
- Wadsworth Volunteer Fire Department (16106)
- Walker River Fire Department (12904)
- Wells Volunteer Fire Department (05003)
- Winnemucca Volunteer Fire Department (08000)
- Yomba/Reese River Valley Fire District (09003)

The quality of the information submitted remains a concern. Keep in mind that the state's fire incident data is only as good as the information that is, or is not, accurately reported. I urge each reporting entity to implement an incident report review process within its agency to ensure consistent, accurate, complete and timely documentation which meets the NFIRS standard. It is vital that the report information entered into NFIRS is reflective of actual incident activity.

As more decision makers at the state and federal level use NFIRS data to make funding, grant and policy decisions, timeliness, accuracy and completeness of data becomes more imperative. Among the information compiled in NFIRS data, the fire fatality statistic is the most common information request this office receives.

The State Fire Marshal Division is dedicated to providing the Nevada Fire Service our support and assistance to the best of our abilities. The Division's staff personally and professionally strives to provide you meaningful information and not information that is skewed and useless. We will continue to support and encourage fire agencies to participate in NFIRS. Our staff also remains available by phone or email to assist departments who may experience difficulties in reporting. Bureau Chief Danny Brennan is available to answer questions and direct fire service professionals to the assistance they need.

If you are not directly reporting into FEMA's Data Entry Browser Interface (DEBI) but are instead using third-party software programs, one significant area that will reduce reporting problems is to ensure that you are using only the most recent version available from your vendor. Use of outdated third-party software programs can cause incomplete submittals or outright data rejection.

A brief review of the data submitted by Nevada's fire agencies show that actual fires continue to be a small part of the incident responses, accounting for only 3.14-percent of all calls. Also evident is the fact that the State's fire issues continue to revolve around residential occupancies, notably single family dwellings, accounting for over \$22,900,000 in property damages reported. Fires in public and mercantile occupancies resulted in over \$3,700,000 in damages while industrial fires damaged over \$1,700,000.

Finally, congratulations are in order for the Fallon Paiute-Shoshone Tribe Environmental Department, Pahrump Valley Fire Rescue, the Pyramid Lake Paiute Tribe, the Reno-Sparks Indian Colony and the Tahoe-Douglas Fire Protection District for being recipients of FEMA grant programs in 2012. A total of \$3,161,684 was received by the above agencies for personal protective equipment, training or hiring of firefighters.

I personally want to thank the Nevada Fire Service for the outstanding service you provide to the residents, visitors and those passing through our state while making the State's communities fire safe.

Yours Truly in Fire Safety,

Peter J. Mulvihill, P.E.
Chief, State Fire Marshal Division
Nevada Department of Public Safety

Article taken from FEMA Press Release – November 2012

NFIRS Web-Based Data Entry Tool

Washington, DC

The Federal Emergency Management Agency's (FEMA) United States Fire Administration (USFA) has recently made available a National Fire Incident Reporting System (NFIRS) web-based data entry tool known as the Data Entry Browser Interface (DEBI). The DEBI enables total web-based data entry into NFIRS, eliminating the need to download and install client software on the NFIRS user's computer. DEBI will run using standard web browsers that will provide access to the application from any computer that has an Internet connection.

"Because DEBI does not need to be downloaded, installed, and configured, it requires much less time and technical knowledge from the NFIRS user," said Glenn Gaines, Acting U.S. Fire Administrator. "We hope this new tool will enhance the NFIRS user experience, increase fire department participation, and lead to improved timeliness of reporting and data quality."

Enhancements for NFIRS were provided under the USFA Reauthorization Act of 2008 and have led to an opportunity for the USFA to make upgrades to NFIRS. These upgrades, which began in October of 2008 with the development of DEBI, went into beta testing on July 10, 2010. DEBI is now available to the nation's fire service for their NFIRS reporting.

In order to use DEBI, which is free of cost to all users, a fire department must have completed the user registration at www.nfirs.fema.gov/users/ and its NFIRS State Program Manager must have assigned it the necessary permissions to use the new tool and activated its account. If a department does not already have an active NFIRS user account, it should contact its NFIRS State Program Manager. Using DEBI requires Internet connectivity, an Internet browser version compatible with the application, and a computer that meets necessary system requirements as outlined at www.nfirs.fema.gov/webtools/. Use of approved third party commercial software as an alternative is still permitted. In addition, departments may continue to use the USFA client Data Entry Tool (DET) if desired.

The Federal Fire Prevention and Control Act of 1974 (PL 93-498) authorizes USFA's National Fire Data Center to gather and analyze information on the magnitude of the nation's fire problem as well as its detailed characteristics and trends. In order to carry out the intentions of the Act, NFIRS was established. NFIRS has two objectives: to help state and local governments develop fire reporting and analysis capability for their own uses and to obtain data which can be used to more accurately assess and subsequently combat the fire problem at a national level. For more information on NFIRS, visit www.usfa.dhs.gov/fireservice/nfirs/. For technical assistance or questions regarding NFIRS or DEBI, please contact the NFIRS Support Center at (888) 382-3827.

Nevada National Fire Incident Reporting System (NFIRS) State Statutes

State of Nevada Statutes that mandate National Fire Incident Reporting System (NFIRS) use

NRS 477.030, Duties; powers (State Fire Marshal), paragraph 7

The State Fire Marshal shall put the National Fire Incident Reporting System into effect throughout the state and publish at least annually a summary of data collected under the system.

NAC 477.905 National Fire Incident Reporting System: Reporting requirements. (NRS 477.030)

For the purposes of the National Fire Incident Reporting System to be put into effect throughout this state as required by NRS 477.030:

1. All local fire jurisdictions in this state shall report to the State Fire Marshal such statistics and data required to publish a summary of fire incident information that is compatible with the National Fire Incident Reporting System. Any fire service within this state may obtain a copy of the annual report from the State Fire Marshal at no charge.
2. The State Fire Marshal will report the statistics, which he/she collects pursuant to this section to the National Fire Information Council semiannually. Because the State of Nevada has been designated as an “all-incident reporting state,” local fire jurisdictions shall report their statistics in a timely manner and in accordance with reporting deadlines established by the State Fire Marshal. (**Note: See page 3 of this report for deadlines).
3. A local fire jurisdiction that is facing technical difficulties in providing information pursuant to this section will receive assistance from the State Program Manager for the National Fire Incident Reporting System within the State Fire Marshal division or may call the FEMA NFIRS Help Desk at (888) 382-3827.
4. A local fire jurisdiction may use computer-aided programs in reporting its information if the programs have been certified for such use by the National Fire Information Council.

NFIRS – Deadlines, Commitments and Other Items

Deadlines

The cut-off for the previous year's data is the last day of March. The data is usually collected by this office from FEMA in late May for the annual report.

Fire agencies must submit all NFIRS Data through the FEMA Website at:

<https://www.nfirs.fema.gov/NFIRSWBI/jsp/authentication/login.jsp>

If an agency is using a third-party software program, follow the program vendor's directions.

Commitments

The Nevada State Fire Marshal Division's Fire Data Office is available Monday through Friday 7:00 am – 4:00 pm, except Federal or State Holidays and mandatory Furlough Days, (775-684-7526).

All data submitted to FEMA in a timely manner will be included in the National Database each year. It is highly recommended that all agencies submit data on a regular basis throughout the year.

Statistical data requests will be handled as quickly as possible for all fire agencies. Please plan ahead and submit your request for data as soon as possible so we have the maximum amount of time to work your request and provide a quality response.

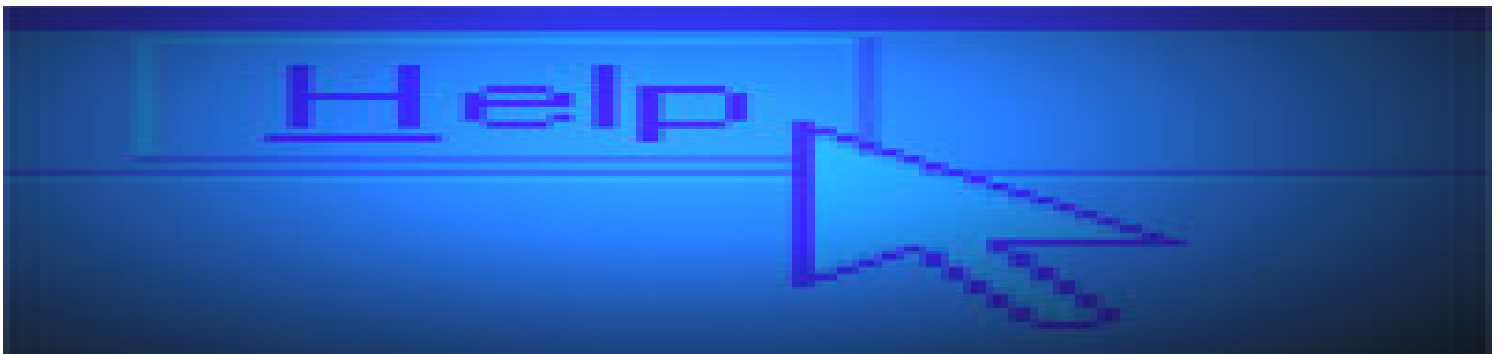

The annual NFIRS Report is published electronically and posted to our website at: <http://fire.state.nv.us/> and circulated throughout the state via email during June of each year for the previous calendar year.

Other Items

The Fire Data Office is constantly pursuing any and all options to make reporting user friendly as possible at all levels.

Please forward any and all comments you may have on making the NFIRS reporting system better for all of Nevada's firefighting elite!

Send your questions and comments to: dbrennan@dps.state.nv.us

Residential Structure Fire Causes – Nevada Only

In 2012, the most common place in a home for a fire to start continues to be the Kitchen of all residential fires. The second leading area is porches, patios, and balconies with the remaining top locations being the bedroom, living room, den and computer areas. The top three items contributing most to the start of the fires were Appliances (Ovens/ranges, Clothes Dryers and Heaters). The number one heat source causing the fires was from Powered Equipment which Ignited Electrical wire or cable insulation the most of any other item in these types of fires.

Federal Assistance to Firefighters Grant Program

2012 Grant Awards

Assistance to Firefighters Grant Program (AFG)

The primary goal of the Assistance to Firefighters Grants (AFG) is to meet the firefighting and emergency response needs of fire departments and nonaffiliated emergency medical service organizations. Since 2001, AFG has helped firefighters and other first responders to obtain critically needed equipment, protective gear, emergency vehicles, training, and other resources needed to protect the public and emergency personnel from fire and related hazards.

Department	City	Type	Awarded	Purchase Items
Fallon Paiute-Shoshone Tribe Environmental Department	Fallon	All Volunteer	\$8,123	Training (\$8,550)
Pyramid Lake Paiute Tribe	Nixon	Combination (Paid & Volunteer)	\$106,470	Equipment (\$76,000) Personal Protective Equipment (\$28,260)
Reno-Sparks Indian Colony	Sparks	Operations & Safety	\$86,099	Equipment (\$24,000) Personal Protective Equipment (\$66,630)
Pahrump Valley Fire Rescue	Pahrump	Operations & Safety	\$259,096	Personal Protective Equipment (\$287,884)

Total Awarded - \$459,788

Staffing for Adequate Fire & Emergency Response Grant Program (SAFER)

The Staffing for Adequate Fire and Emergency Response Grants (SAFER) was created to provide funding directly to fire departments and volunteer firefighter interest organizations in order to help them increase the number of trained, "front line" firefighters available in their communities. The goal of SAFER is to enhance the local fire departments' abilities to comply with staffing, response and operational standards established by the NFPA and OSHA (NFPA 1710 and/or NFPA 1720 and OSHA 1910.134).

Department	City	Type	Awarded	Purchase Items
Tahoe Douglas Fire District	Zephyr Cove	Paid	\$2,701,896	Hiring (\$2,701,896)

Total Awarded - \$2,701,896

Fire Prevention and Safety Grant Program (FP&S)

The Fire Prevention and Safety Grants (FP&S) are part of the Assistance to Firefighters Grants (AFG), and are under the purview of the Grant Programs Directorate in the Federal Emergency Management Agency. FP&S Grants support projects that enhance the safety of the public and firefighters from fire and related hazards. The primary goal is to target high-risk populations and reduce injury and prevent death. In 2005, Congress reauthorized funding for FP&S and expanded the eligible uses of funds to include Firefighter Safety Research and Development.

Department	City	Type	Awarded	Purchase Items
No Awards			\$0	

Total Awarded - \$0

Assistance to Firefighters Station Construction Grant Program (SCG)

The Department of Homeland Security's Assistance to Firefighters Fire Station Construction Grants (SCG) provides financial assistance directly to fire departments on a competitive basis. The goal of the grants is to build new or modify existing fire stations in order for departments to enhance response capabilities and protect the community from fire and fire-related hazards.
