July 2, 2014

Dear Nevada Fire Service Colleagues:

The 2013 Annual Fire and Incident Response Statistics Report for the State of Nevada prepared by the Nevada State Fire Marshal Division is presented. This report has been compiled from data Nevada's fire agencies submitted to the Federal Emergency Management Agency's (FEMA) National Fire Incident Reporting System (NFIRS). The report has been prepared for distribution as an electronic document and may also be downloaded on our website at [www.fire.nv.gov](http://www.fire.nv.gov).

The goal of NFIRS is to encourage the use of a standardized incident reporting system as a means of identifying and addressing the State's fire problem and related emergency service issues. NFIRS plays a major role in reducing injuries, fatalities and economic issues from fires and related emergencies by facilitating the collection, compilation, analysis and use of data to develop and disseminate valuable statistics needed by decision makers at all levels of government.

The fire and incident information, gathered from reporting departments, provides a vital resource of statistical data which can be shared statewide to assist Nevada's legislative and executive bodies, the State Fire Marshal and the State's fire agencies in determining fire cause trends and specific areas of fire losses that may need to be addressed.

The staff at the State Fire Marshal Division does not see specific fire incident reports submitted to FEMA and does not see which data may be missing until the annual download occurs in March of each year.

The most recent data download includes incident information from 114 out of 159 (72%) of the State's fire agencies covering 374,714 incidents. This continues both a downward trend in the number of fire agencies reporting and an upward trend in the number of incidents responded to by fire agencies across the state.

The following local fire agencies did not report incidents in calendar year 2013:

- Airport Authority Fire Department (16050)
- Austin Fire Department (09000)
- Battle Mountain Fire Department (09001)
- Cold Creek Volunteer Fire Department (17852)
- Cold Springs #20 Volunteer Fire Department (16102)
- Eureka County Fire Protection District (07000)
- Fallon-Paiute-Shoshone Tribal Fire (02902)
- Fish Lake Volunteer Fire Department (06050)
- Gerlach Volunteer Fire Department (16103)
- Golconda Volunteer Fire Department (08100)
- Goldfield Volunteer Fire Department (06000)
- Goldpoint Volunteer Fire Department (06051)
- Grass Valley Volunteer Fire Department (14002)
- Humboldt Fire Protection District (08250)
- Hungry Valley Fire Department (16107)
- Imlay Volunteer Fire Department (14001)
- Jackpot Fire Department (05002)
- Kingston Volunteer Fire Department (09002)
- Lackawanna Volunteer Fire Department (17853)
- Lund Volunteer Fire Department (17854)
- McDermitt Volunteer Fire Department (08904)
- Nevada ANG Fire Department (16902)
- North Lyon County Fire Protection District (11000)
- Orovada Volunteer Fire Department (08150)
- Pahrangat Valley Volunteer Fire Department (10003)
- Paradise Valley Volunteer Fire Department (08200)
- Pueblo Fire District (08906)
- Pyramid Lake Volunteer Fire Department (16105)
- Round Mountain/Hadley Volunteer Fire Department (13005)
- Ruth Volunteer Fire Department (17856)
- Silver Peak Volunteer Fire Department (06001)
- Snake Valley Volunteer Fire Department (17850)
- Steptoe Valley Volunteer Fire Department (17851)
- Storey County Fire Department (15050)
- Valmy Volunteer Fire Department (08907)
- Wadsworth Volunteer Fire Department (16106)
- Walker River Fire Department (12904)
- Winnemucca Volunteer Fire Department (08000)
- Yomba/Reese River Valley Fire District (09003)

Requests for statistical data are regularly received by the Division. If no data is input, the assumption by decision makers is that there is no problem and support for fire

prevention, suppression and public education programs is no longer necessary either on a local level or at the state level. We encourage all agencies to participate in the NFIRS program and will do everything possible to support, answer questions or direct local agency personnel to resources to assist with NFIRS reporting.

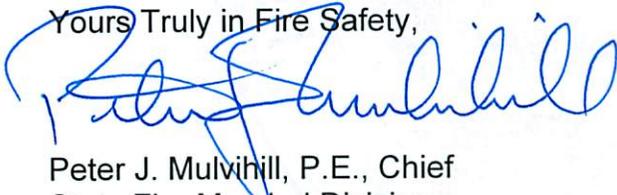

Our staff remains available by phone or email to assist departments who may experience difficulties in reporting. Bureau Chief Danny Brennan is available to answer questions and direct fire service professionals to the assistance they need.

A brief review of the data submitted by Nevada's fire agencies show that actual fires continue to be a small part of the incident responses, accounting for only 1.94-percent of all calls. Also evident is the fact that the State's fire issues continue to revolve around residential occupancies accounting for over \$31,200,000 in property damages reported. Fires in public and mercantile occupancies resulted in over \$1,400,000 in damages while industrial fires damaged over \$550,000.

Finally, congratulations are in order for the Sparks Fire Department, the Reno Fire Department, Las Vegas Fire & Rescue, the Truckee Meadows Fire Protection District, the Storey County Fire Department and Washoe County Emergency Management for being recipients of FEMA grant programs in 2013. A total of \$7,440,116 was received by the above agencies for personal protective equipment, fire prevention activities, recruitment or hiring of firefighters.

I personally want to thank the Nevada Fire Service for the outstanding service you provide to the residents, visitors and those passing through our state while making the State's communities fire safe.

Yours Truly in Fire Safety,

Peter J. Mulvihill, P.E., Chief  
State Fire Marshal Division  
Nevada Department of Public Safety

Article taken from NFPA Conference and Expo in Boston – September 2013

## Importance of NFIRS Reporting

Usually the only reason fire departments file reports with the National Fire Incident Reporting System (NFIRS) is because they have to if they want federal grant money. It's that simple.

But, there are other, perhaps even more important reasons to file the reports, as Marion Long, a fire program specialist for the United States Fire Administration's National Fire Data Center, points out.

Long, who was a guest presenter at the National Fire Protection Association (NFPA) Conference and Expo in Boston, said filing the reports makes him happy and not just because he's a "numbers guy."

"Nobody likes filing reports," he said. "I get it. But you need to know that important decisions are being made based on the information you provide through those reports."

Accurate data is important when policies are made and funding is allocated, Long said. It's vital that departments indicate what they do and get the information filed in a timely fashion.

"It's not that you do nothing, it's that you do everything and people don't realize that if you don't tell them," Long said.

In his presentation, called "Fighting Fires with Facts: It's Time for the Fire and Emergency Services to Open Its Eyes -- Information Sharing via NFIRS," Long said there's lots of information departments can glean from the reports.

Response time, kinds of fires, days of weeks when responses occur most often and a myriad of other kinds of information are readily available, but only if it gets filed, he said.

"Close your eyes," Long instructed the classroom attendees. "Think about your department. Think about your responses. You know what your department did, but do you have any idea what the other departments represented around you did? No you don't and that's my point."

"NFIRS is not a federal program. It's YOUR program. It's the fire service program. It's a way to share information," he said.

Reporting becomes less onerous when departments recognize the value and understand they can actually use the information for their own purposes, Long said. Departments need to "get something out of it" as an incentive to do the work.

Long shared statistic about NFIRS, including the fact that an incident is recorded in the system once every 1.5 seconds with over 20 million filed annually. More than 23,000 fire departments nationwide provide information to NFIRS, most often through their state program directors.

When all of the reports are filed in a timely fashion, NFIRS becomes a data warehouse for all kinds of purposes, he said.

"The world has no clue what the fire service does," Long said. That's why the reporting system is important. It provides the vehicle by which the nation and its leaders understand the fire service's mission. "There's only a small percentage of population that knows what the fire service does," he said. "You have to let people know what you do."

Long said the days are gone when fire departments could expect to receive funding just because of what they do and because of a sense of entitlement. "You can't expect things to drop in your lap just because you are in the fire service," he said.

Limited funding and resources have forced leaders to make tough choices. "It's no longer choosing between the good and the bad ideas. It's a matter of choosing between the good and the good," Long said.

The way to distinguish one department from another is through the reporting which shows what departments do and how well they do it, he said.

"There is no doubt in the fire service that what you do is great," Long said. "It's just time to show everyone else how great you are."

# Nevada National Fire Incident Reporting System (NFIRS) State Statutes

---

## State of Nevada Statutes that mandate National Fire Incident Reporting System (NFIRS) use

*NRS 477.030, Duties; powers (State Fire Marshal), paragraph 7*

The State Fire Marshal shall put the National Fire Incident Reporting System into effect throughout the state and publish at least annually a summary of data collected under the system.

*NAC 477.905 National Fire Incident Reporting System: Reporting requirements. (NRS 477.030)*

For the purposes of the National Fire Incident Reporting System to be put into effect throughout this state as required by NRS 477.030:

1. All local fire jurisdictions in this state shall report to the State Fire Marshal such statistics and data required to publish a summary of fire incident information that is compatible with the National Fire Incident Reporting System. Any fire service within this state may obtain a copy of the annual report from the State Fire Marshal at no charge.
2. The State Fire Marshal will report the statistics, which he/she collects pursuant to this section to the National Fire Information Council semiannually. Because the State of Nevada has been designated as an “all-incident reporting state,” local fire jurisdictions shall report their statistics in a timely manner and in accordance with reporting deadlines established by the State Fire Marshal. (\*\*Note: *See Deadlines, Commitments and Other Items page of this report for deadlines*).
3. A local fire jurisdiction that is facing technical difficulties in providing information pursuant to this section will receive assistance from the State Program Manager for the National Fire Incident Reporting System within the State Fire Marshal division or may call the FEMA NFIRS Help Desk at (888) 382-3827.
4. A local fire jurisdiction may use computer-aided programs in reporting its information if the programs have been certified for such use by FEMA.

# NFIRS – Deadlines, Commitments and Other Items

---

## Deadlines

The cut-off for the previous year's data is the last day of March. The data is usually collected by this office from FEMA in late May for the annual report.

Fire agencies must submit all NFIRS Data through the FEMA Website at:

<https://www.nfirs.fema.gov/NFIRSWBI/jsp/authentication/login.jsp>

If an agency is using a third-party software program, follow the program vendor's directions.

## Commitments

The Nevada State Fire Marshal Division's Fire Data Office is available Monday through Friday 7:00 am – 4:00 pm, except Federal or State Holidays and mandatory Furlough Days, (775-684-7526).

All data submitted to FEMA in a timely manner will be included in the National Database each year. It is highly recommended that all agencies submit data on a regular basis throughout the year.

Statistical data requests will be handled as quickly as possible for all fire agencies. Please plan ahead and submit your request for data as soon as possible so we have the maximum amount of time to work your request and provide a quality response.

The annual NFIRS Report is published electronically and posted to our website at: <http://fire.nv.gov/> and circulated throughout the state via email during June of each year for the previous calendar year. **This year the report was delayed due to FEMA upgrade of the NFIRS servers and was not distributed until July.**

## Other Items

The Fire Data Office is constantly pursuing any and all options to make reporting user friendly as possible at all levels.

Please forward any and all comments you may have on making the NFIRS reporting system better for all of Nevada's firefighting elite!

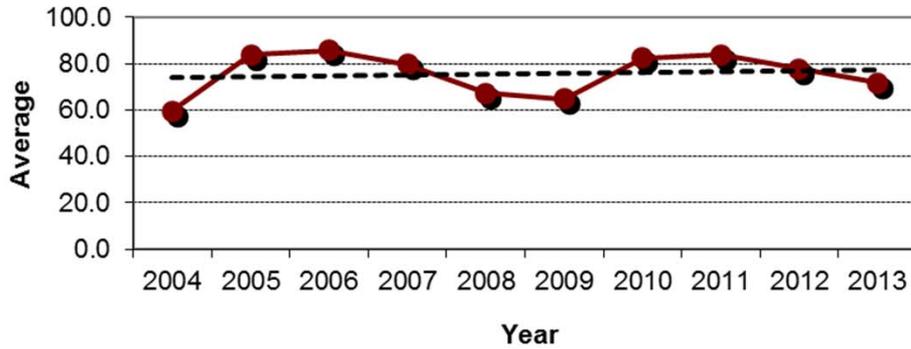

Send your questions and comments to: [dbrennan@dps.state.nv.us](mailto:dbrennan@dps.state.nv.us)

# Federal Assistance to Firefighters Grant Program

## 2013 Grant Awards

### Assistance to Firefighters Grant Program (AFG)

The primary goal of the Assistance to Firefighters Grants (AFG) is to meet the firefighting and emergency response needs of fire departments and nonaffiliated emergency medical service organizations. Since 2001, AFG has helped firefighters and other first responders to obtain critically needed equipment, protective gear, emergency vehicles, training, and other resources needed to protect the public and emergency personnel from fire and related hazards.

Department	City	Type	Awarded	Purchase Items
Sparks Fire Department	Sparks	Paid	\$414,859	Personal Protective Equipment (\$460,454)
Reno Fire Department	Reno	Paid	\$345,600	Equipment (\$384,000)

**Total Awarded - \$760,459**

### Staffing for Adequate Fire & Emergency Response Grant Program (SAFER)

The Staffing for Adequate Fire and Emergency Response Grants (SAFER) was created to provide funding directly to fire departments and volunteer firefighter interest organizations in order to help them increase the number of trained, "front line" firefighters available in their communities. The goal of SAFER is to enhance the local fire departments' abilities to comply with staffing, response and operational standards established by the NFPA and OSHA (NFPA 1710 and/or NFPA 1720 and OSHA 1910.134).

Department	City	Type	Awarded	Purchase Items
Las Vegas Fire & Rescue	Las Vegas	Paid	\$6,297,400	Hiring
Truckee Meadows Fire Protection District	Reno	Paid	\$267,564	Recruitment

**Total Awarded - \$6,564,964**

## Fire Prevention and Safety Grant Program (FP&S)

The Fire Prevention and Safety Grants (FP&S) are part of the Assistance to Firefighters Grants (AFG), and are under the purview of the Grant Programs Directorate in the Federal Emergency Management Agency. FP&S Grants support projects that enhance the safety of the public and firefighters from fire and related hazards. The primary goal is to target high-risk populations and reduce injury and prevent death. In 2005, Congress reauthorized funding for FP&S and expanded the eligible uses of funds to include Firefighter Safety Research and Development.

Department	City	Type	Awarded	Purchase Items
Storey County Fire Department	Virginia City	Fire Prevention	\$39,256	Prevention Activities
Washoe County Emergency Management	Reno	Fire Prevention	\$75,437	Prevention Activities

**Total Awarded - \$114,693**

## Assistance to Firefighters Station Construction Grant Program (SCG)

The Department of Homeland Security's Assistance to Firefighters Fire Station Construction Grants (SCG) provides financial assistance directly to fire departments on a competitive basis. The goal of the grants is to build new or modify existing fire stations in order for departments to enhance response capabilities and protect the community from fire and fire-related hazards.

Department	City	Type	Awarded	Purchase Items
No Awards			\$0
